# Axel Antonio Espinosa Espinoza

Guadalajara, Jalisco • axelespinoza887@gmail.com • https://github.com/InozaAki • (33) - 21863667

## Education

**Centro Universitario de Ciencias Exactas e Ingenierías (CUCEI)**                      Guadalajara, Jal.

Bachelor's degree in computer engineering                                                              2022 – to date

## Experience

**Universidad de Guadalajara (UdeG)**                                                                        Guadalajara, Jal.
08/2024 – 01/2025

**Software Development Intern**

- Developed institutional information systems, including a system for incident management and internal commissions, optimizing administrative processes.
- Improved functionalities in existing systems, such as the registration of new university applicants, optimizing the processing and storage of large volumes of information.
- Managed and optimized, improving the structure of an existing database to streamline queries, operations and ensure the persistence of information.
- I learned and applied principles of microservices design and development of REST APIs for scalable and efficient services
- I strengthened my knowledge in Java, specifically, data management and encapsulation in enterprise applications.

## Skills and interests

**Expertise:**

- Java
- Spring
- React
- Django
- Oracle DB
- Web development

**Language:**

- Spanish (Native)
- English
    - Reading (90%)
    - Speaking (60%)
    - Listening (60%)

**Interest:**

- Creation of personal projects with React (some other framework derived) and Spring.
- Continuous learning on software architecture and system design.
- Learn more about design patterns and the efficiencies of each one.
